[Livestock Reservations Report](#)

The Livestock Reservation Report is now live. The spreadsheet's primary purpose is to help users know when the facility has space to help them place an order.

Here are a few tips for navigating the report:

- Tabs at the bottom separate the animal rooms, and each pen is listed on the left-hand side of the sheet.
- Each pen can be reserved up to 20 times
- The arrival and EOS dates for each order show when the pen is occupied.
- Each pen holds one pig up to 50kgs except four pens in room 608 that hold pigs up to 100kgs. Pigs over 51kgs up to 100kgs need two pens, and pigs over 101kgs need three pens. I hope this will help you plan your orders with more ease.

Please do not hesitate to reach out if you have questions about placing an order. We are continually receiving orders and allocating them and there can be a lag between updating the reservation system and placing orders in Bioware, so you will always need to confirm that the space you see in the reservations is available.
